

Othello Park Habitat

The Othello Park Habitat Restoration project gives community members the chance to help steward a valuable park resource, and to serve as a positive adult role model for the youth working on the project.

Come out and work with neighbors, community members, and King County youth to:

- ✂ Remove invasive weeds
- ✂ Install erosion control jute netting
- ✂ Mulch with woodchips
- ✂ Plant native understory plants
- ✂ And much more

Tools and gloves will be provided. To find out more about helping with the restoration project, please contact Katie Pencke at 206-992-7034 or pencke@yahoo.com.

Work Parties Schedule

- ✂ *Saturday January 16, 10am - 1pm*
- ✂ *Saturday February 6, 10am - 1pm*
- ✂ *Saturday February 20, 10am - 1pm*
- ✂ *Saturday March 13, 10am - 1pm*
- ✂ *Saturday March 27, 10am - 1pm*

This project is a partnership of the Othello Park Alliance, Seattle Parks and Recreation, King County Superior Court, and King County Department of Natural Resources. The project will take place during the period of October 2009 – April 2011.

The Othello Park Alliance works to assure that Othello Park's beauty and open space is retained, enhanced, and integrated into a vibrant, multicultural, pedestrian-friendly Othello town center and residential community by coordinating community events and making capital improvements in the Park.
